Continental Exhibition

The attention of enterprising firms desirous of increased public patronage is called to the advantages of Advertising in the Anglo-Argentine Tramway Cars which, running to and from the Exhibition building from all parts of town, offer an unusually favorable opportunity for the display of modest announcements, business cards, etc. The number of visitors to the Exhibition is expected to be enormous, and the Anglo-Argentine Company, being well-known for the speed, convenience and comfort of the cars, this too is the only direct route to the Exhibition. The rates for placards inside the cars have been much reduced and are now the lowest in town.

Vaslinomania

I stood one shining morning, where Dark frowned the crease of Linnet's eye, On grim Glenarthy's summit lay: And there, upon an ancient rock That long had braved the tempest's shock, I saw, inacribed in brilliant green, The curious legend VASELINE! And on the ground lay stretched and prone, His head upon a mossy stone.

With ragged clothes and t'ngled hair, And beard unkempt, and bosom bare, A shivering man, of stature rare, With brush and pull beside him there.

With much surprise and some alarm I spoke, and shook his heavy arm: Then yawned his hairy visage wide, And sleeping still the man replied:

"It cured me when I bring here, For I travel night and day!"

"On foot around the world I've been, To seek the points of VASELINE!"

"From Pole to Pole, through all between, I've spread the name of VASELINE."

"On mountains high, in forest green, I paint the name of VASELINE!"

"I'd mount the mighty wall on high, To grave it on the sunny sky!"

"To cure all ills on earth, VASELINE! Heaven sent in mercy, VASELINE!"

THE EXHIBITION.

If exhibitors in the Continental Exhibition are as quick to send in and place their exhibits as the workmen have been to erect the building, the public may be confident that the inauguration will take place on the 15th of next month. The actual exhibition building in the Once has been raised in thirty-four days, and this only shows what can be done with energy and perseverance.

Although in our opinion it like matters whether the exhibition takes place on the 15th or 25th of February, it is more than probable that the exhibition will lag behind and not be in time; this is a natural occurrence in all exhibitions, and visitors on the inauguration day must sometimes satisfy themselves with a glance at piles of cases, or put their shoulder to the wheel as Rufino Varela in Paris, and hammer in hand help in pushing work ahead.

Since the gas pipes have been laid down by the Argentine Gas Company the men are enabled to work day and night at the flooring and inside painting; the inside will be painted white, as the place will be too dark otherwise, owing to the high windows; some luminous paint might be used by way of experiment. On Monday next the inside parts of the building will be finished, and exhibitors are at liberty to send in their exhibits, naturally through medium of the respective committees. The remittance of exhibits will be the longest and most tedious part of the work.

On the 15th of February the visitor to the Fair will enter by the Calle Rivadavia entrance, not yet finished: he enters a vestibule, where in all probability he will be requested to leave his walking stick or umbrella. Veering to the right he enters the Argentine Section, comprising the 14 Confederate provinces and 3 National territories of this republic: first comes Buenos Aires, occupying a space of 600 sq. metres; all can imagine what this province will exhibit: woods, hides, reboques, bones and exotics, saddlery etc. After Buenos Aires, comes the unfortunate sister Corrientes; owing to the bad state of affairs in that province, it is expected that the only place that will figure well will be Goya, with its delicious cheeses, superior to the imported staff. Santa Fe follows; here cereals rule supreme with dairy products from the thriving colonies; where would Santa Fe be without the colonies? In front of Santa Fe's exhibits, a large gallery comes across from Rivadavia to Piedad, and as yet it is not known what will be placed in same.

Entre Rios occupies a smaller space than Santa Fe, but the area depends on the exhibits forthcoming. Entre Rios is a most fertile province and can send as much wool, hides, etc. as Buenos Aires. Entre Rios Corrientes follows in the wake: this province of Entre Rios is the jewel of the Republic in the exhibition; whilst Portenas and Entre Rios show off their woods, their hides and their tallow, the Cordobesa will send in cheese, superior to the Goya quality, and 'tableas'; we sympathise with those of our readers who do not know what 'tableas' is; the Cordoba girls make it, and it tastes nowhere so good as in Cordoba.

PARIS LETTER.
(From our own Correspondent)

December 3rd

Since five years at least, the working men may be said to enjoy the fullest liberty in respect to establishing newspapers to advocate their grievances and holding congresses to debate measures for ameliorating their condition. The result, and it is said to have to record the truth, has been nil. The stages of theoretic propositions have been lived through; the romanticism of universal fraternity and reliance on human love to supersede competition have been exposed; every nostrum of socialism, collective and individual, has been weighed in the balance and found wanting; declamation has shared the fate of all wind-bagism; and the working men may be excused asking at last, where are we now? Neither their public meetings nor their delegates have drafted a single measure fit for the governing classes to grapple with; not one of their representatives in parliament, from Louis Blanc downwards, has presented a bill to be even taken into consideration. All has proved barren from Dan to Baerheba. The fact has been demonstrated, that the working men's delegates are incapable to precise ameliorations, to co-ordinate grievances, to even methodise their special professional drawbacks; the State over and over again announces its readiness to welcome measures of relief, to remove every obstacle that may be considered as weighing unfairly on the artisan; to place him, in a legal point of view, on an equality with the employer, but nothing more. Yet no charter is presented. The gods are invoked, and when they manifest willingness to listen, the suppliants disappear. These observations fully apply to the Congress now being held; the proceedings have nothing practical, nothing to enlist public interest, or awaken general sympathy. For the first time the cooks have appeared on the scene; they complain of being overworked, 16 hours out of the 24, and no less than 12 of these in Shadreck Black Holes of Calcutta; they demand a half holiday once a month, not an excessive boon. They protest, and the fact will astonish many, that they are underfed, and badly, in addition. This is a further illustration of the proverb, that the shoe-maker has ever the misfortune to wear the worst shoes.

As Prime-Minister, M. Gambetta has won his spurs on the dreary Tunisian question; France will protect, but not annex the Regency; in the little debate on the supplemental credits, he quietly extinguished M. Trevis's son-in-law, M. Wilson, not an Herculean feat in any case. In fact Gambetta now means France. He will carry out the requisite reforms with moderation, since he has no longer to fight for his political existence. The new ministers are such hard workers that they cannot but merit reward. Judging from the special voters chosen to elect members for the Senatorial vacancies, 35 outgoing monarchical or opposition Senators will be re-

Tucuman, the garden of the Republic, occupies the next space, with Catamarca alongside. The latter province has little to boast of, but Tucuman has varied productions, and we may expect sugar by barrels. Salta, Santiago del Estero, Jujuy and San Luis will send vicuña ponchos, cojinitos and gaucho articles of industry. Some very nice (and original) ornaments are made in these provinces.

Rioja, San Juan and Mendoza will send 500 different kinds of wines: their qualities are all in an ascending ratio. Making allowance for the consumption of the wine in the Exhibition by foreigners who wish to judge of the qualities, 500 bottles of each quality should be sent to meet the demand. These wines are so good that no one will doubt for a moment but that the contents will disappear rapidly. The European visitors will have the great gratification of drinking Rioja sherry, than which there is no better in the world.

There is no wine to beat the Rioja sherry: its aroma can be smelt before you uncork the bottle, and its delicious flavour lingers on the palate as if unwilling to part. Happy provinces of the Interior. As long as provincianos drink Rioja sherry they are all right. Here, in Buenos Aires, where Portenas drink Chateau-Margaux from Batignolles, and Chateau-Lafite of the Calle Equador in the Once, from \$25 to \$55 the bottle, one can form an accurate criterion of the felicity of those who indulge in the juice of the grape.

Here ends the Argentine section at the corner of Calle Rivadavia and the street down which the Argentine tram-cars turn into the Calle Piedad.

The foreigner who visits the Argentine section will be struck with the immense variety of productions and the incredible paucity of industries. Another day we will have occasion to mention the other South American States that will figure at this tournament of Progress.

The favorite fashionable color is virgin gold, of different shades; costumes are ornamented from contributions of the three kingdoms of nature; vegetables are competing with roses; what can be nicer than a robe trimmed with rose radishes, or artichoke leaves, or small carrots; they put violets and camellias into the shade. At a private ball given by Marie Antoinette, Madame de Maitignon appeared in a robe composed of Damascus dinner napkins, from which were suspended turnips, broccoli, carrots, and plumes of leeks.

The richest portion of land in France is the region extending from Blagnac to St. Etienne in Upper Medoc, and where the best Calvados comes from; it comprises an area of 50,000 acres; everyone is wealthy in the neighborhood, and would be happy, only for the phylloxera. The Calvados here produced comprise the four brands: peasant, artisan, middle class, and grand; the latter is divided into five categories, including Chateau-Lafite, Chateau-Margaux, Latour, Haut Brion etc. Chateau-Lafite is the oldest Vineyard in Medoc, and is owned by the Rothschild family; 185 acres are under vines; producing annually 180 hogheads of 200 gallons each; price for this year's wine, 6,000 francs per hectare. The annual expenses of the vineyard are fr. 100,000. There is wine in the cellars since 1797, and the average number of bottles there is 100,000. Chateau-Margaux belongs to M. Pilets-Will, and the area of the vineyard is 100 acres, and the yield from 125 to 170 hds.

THE MILITARY AND NAVAL STRENGTH OF THE UNITED STATES.

The Naval Advisory Board, which has been consulting about reorganising the U. S. Navy, has presented a report to the Secretary of the U. S. Navy. The Board states that the navy contains only 21 ships of war which are either obsolete or worth repairing. In regard to the need of new ships, the board takes up the position that, in order to put the navy upon a proper footing, it is necessary to build at once 41 ships of various classes, as follows:—two vessels of 5,300 tons displacement, which shall be able to steam 15 knots an hour at sea; six vessels of 4,300 tons displacement, able to steam 14 knots an hour; 13 vessels of 3,500 tons, capable of 13 knots an hour; 20 gunboats of 770 tons, capable of making 10 knots an hour. The material recommended for the gunboats is wood, and for all the rest the board has decided upon steel keels, covered with wood and sheathed with copper. The idea is to have a navy of swift iron cruisers, it being thought

carry guns somewhat heavier than those now used on ships of corresponding grades in the foreign navies. These ships are all to be fitted with six day's coal for full steam. It is estimated by the board that the time of constructing this new navy, including the repair and refitting of such ships as are worth it, and those now on hand, will be eight years. The cost is estimated at \$1,000,000 dollars. The navy would then consist of 62 vessels of all classes. A minority report was submitted in regard to the six 14-knot vessels, recommending that they should be constructed with one deck or without a spar deck. In all other matters the board were agreed. The report will be submitted to Congress by the Secretary of the Navy.

General Sherman, in his annual report on the army, recommends the repeal of the law limiting the army to 25,000 men, and asks for a 20 per cent. increase, saying that the additional cost will be defrayed from the savings in transport necessitated now by the widely-scattered condition of the army, because the troops have to be carried long distances to threatened points. General Sherman urges this strongly as a necessary relief to the overtaxed soldier. The present actual force is 19,815 combatants and 3,781 non-combatants, a total of 23,596. He wants the army to be increased to 26,100 enlisted men, with 3,780 non-combatants. He recommends that an Army-Navy Board be created to consider the question of coast defense. This board should report to the Secretary of War what coast forts should be maintained, what sites should be retained for future use, and what may be absolutely sold; and, further, that authority be granted to the President to sell the same, subject to any conditions which Congress may impose. He also recommends a similar course with regard to the interior military posts. —Globe.

EDITOR'S TABLE.

Yesterday the Judges of the National Court took possession of the Cabildo of Buenos Aires. This may be accepted as the beginning of the end—an end that has been postponed until events themselves led further postponement impossible. It is not so long since the Provincial Courts were moved out of Getting and Co.'s old premises in Calle Defensa, and popped into the new court rooms in the Cabildo which they are now obliged to vacate. All day yesterday the greatest uncertainty reigned as to the 'locus in quo' of the Provincial Courts, but the latest rumour about is that the Tribunal de Primer Instancia and the Provincial Court of Justice of the Common Pleas will temporarily be quartered at Watson's Hotel in Belgrano, the members of the Bar preferring this place to the Walkway quinta or the drawing-rooms over the Penitentiary, where there is no bar as at 'muse hours'.

There was much much fresh news going about yesterday morning, and the public looked in vain in the papers for Governor Rocha's expected decree removing the Capital of the province to Belgrano 'pro tem.' The escriptura muelle continued; in foreign circles the Havas telegram announcing that the Emperor of Germany had issued a Rescript claiming the right to manage the home and foreign affairs of Prussia as he deems fit, was much discussed. As 'l'empire, c'est la Prusse,' this declaration of the Emperor seems rather a serious affair.

Telegrams from Chile report a rather serious bit of news, if it is not a mere nest, viz: that the United States Minister at La Paz (Bolivia) has some mining speculation on hands which has turned out to have some relation with the diplomatic course recently taken by Mr. Harbison in Lima, which has provoked the general condemnation of the United States Press. We should like a little confirmation of this news before taking it in full. Another telegram announces a victory by Admiral Lynch's forces over the troops, or guerrillas, under Caceres.

On Wednesday Mrs. Morgan, of Giles, died at the ripe age of 90 years. Mrs. Morgan lived for over half a century in this country; her sons are some of our richest estancia owners in the North, and her funeral, which took place yesterday at the estancia, was one of the largest ever seen in those camps.

We feel great pleasure in announcing that the enterprising Messrs. Lacroze, in view of the complaints to which we referred in our issue of yesterday, have appointed additional inspectors and are determined to put a stop to the irregularities mentioned. This Lacroze line has hitherto enjoyed the reputation of being one of the best managed in the city, and we shall be sincerely glad to see it retain this well earned prestige. Twenty splendid new cars are now being built at Messrs. Lacroze's workshops at Almagro. This shows how their business is increasing; their cars are always full, and they must be piling up money.

The Municipality held no session yesterday, as most of the members

had to go home to early dinner in order to attend the Archery 'function' at Flores.

Dr. Hector Alvarez, Sub-Secretary of Interior, with a few friends, will leave about the end of this month in the Arg. gunboat Parana direct for San Blas.

We feel sincere pleasure in making room beside us in the Editorial Bus for a countryman and friend—Mr. Michael Dinneen, who has joined Dean Dillon as co-editor and manager of the Southern Cross.

We congratulate both the Dean and Mr. Dinneen on this arrangement. The latter is no novice with the Pen, and his vigorous style is already well and favorably known to his countrymen in the Plate. We wish the Southern Cross a full increase of prosperity in its new hands. Owing to Mr. Dinneen joining the Southern Cross, he cannot carry out his intention of opening a college in S. Pedro, and he begs us to thank for him the many friends who had generously offered him their patronage and support.

The National Government promulgated yesterday the Law federalizing Misiones. A Governor General will be appointed and the existing taxes will be levied till Congress passes a general Law for the administration of the new territory.

Mr. Francis Younger is about to start a new and most important industry in this country—the growing of Hops. One hundred sets of plants have come out to him in the Koper, and he intends to cultivate them on his estancia at Quilmes. The initiation of such a valuable branch of agriculture in this country is of such vast importance that Government should certainly take some notice of it and award Mr. Younger a premium for his energy in a direction so valuable.

Are you going to Flores to-night? was the only question yesterday in fashionable British and Argentine circles. Every body answered Yes! We hope to give our readers full particulars in our next issue.

The Argentine Minister in Montevideo has intimated to the National Government that he would like to be placed in a position to exact a couple of first-class passages, free, from the river steamers running between this port and Montevideo, whenever he thinks proper to do so. We hope the Minister for Foreign Affairs will not consent to put one of the country's representatives in any such undignified position. We thought the dead-head system, except for third class passengers, was at an end long ago.

Service will be held at the estancia 'Progreso,' Lezama F. O. S. on Sunday 15th inst., instead of at St. Andrew's, Presbyterian Church, Obacunas.

The rumour that General Santos intended to scratch himself for the race for the B. O. Presidential Cup is all moonshine. A duck generally swims when it gets the chance and no duck ever liked water better than General Santos does the sweets of office. Now that Lacroze has apparently abandoned all intention of regenerating his country Santos will try it—and fail.

The expected Municipal election about theatres was issued yesterday. The owners and empresarios are allowed three months to effect the following alterations: First, an iron shutter separating the stage from the body of the House; second, special guards to watch all parts of the theatre during a performance; third every door in the theatre to open outward; fourth, every door in the house to be kept open during a performance; fifth, telegraph wires from inside and outside the theatre to the Police and quarters of the Bombers. These theatres that have not complied with the above regulations within the three months allowed will not be permitted to give a performance till they do so, and moreover will have to pay a fine of \$ 3000. We congratulate our worthy Lord Mayor on this edict worthy of a great monarch. We should like to see the Lord Mayor take it in full. Another telegram announces a victory by Admiral Lynch's forces over the troops, or guerrillas, under Caceres.

On Wednesday Mrs. Morgan, of Giles, died at the ripe age of 90 years. Mrs. Morgan lived for over half a century in this country; her sons are some of our richest estancia owners in the North, and her funeral, which took place yesterday at the estancia, was one of the largest ever seen in those camps.

HAVAS AGENCY

London 11th. The state of Ireland, which appears to have quietened down somewhat, assumes again a grave character. The assassinations of landlords and agents are repeated with frequency, and it is believed that the Land League, although outwardly suppressed, direct them, because the authors never always escape the hands of justice. Important clandestine deposits of arms have been discovered in various parts of the island. Meantime telegrams from New York continue announcing that the subscriptions got up in North America in favor of the Land League are progressing rapidly.

ON CHANGE.

Cables A..... 108 Du E..... 90 National Bank Shares..... 1350 Operations in gold were very limited today. The stock and 90-day bill at 1840. Some transactions were effected at 18.03. The situation of the market is not in the Province. It is thought in general that the stamp crisis will end in a rise of interest of the and the abolition of the Provincial Stamp. The Bank will gain by the measure. The gold in its vaults is daily accumulating, and we think the Board has exaggerated to London for \$2,000,000.

Cables continue as firm as rock, and Santos & Co. sell at 108 for cash and 104 for end of March. Santos & Co. sell at 104 for cash and 100 for end of March. Santos & Co. sell at 104 for cash and 100 for end of March.

National Bank Shares opened firm, but the unsustained fall of sellers weakened the market. Last night's closing prices were not maintained in face of the numerous shares offered on the market. Cash sales opened at 1245 and closed at 1250. For end of month close at 1250. Santos & Co. sell at 1245 and closed at 1250. Santos & Co. sell at 1245 and closed at 1250.

The rise in Primitive Gas Shares is very steady and quick, much more so than in Cables. The stock and 90-day bill at 1840 for cash, yesterday's quotation for the end of the month close at 1840. Santos & Co. sell at 1840 and closed at 1840. Santos & Co. sell at 1840 and closed at 1840.

In exchange there is nothing doing; no money to be had.

The deficit is not so large as was expected; the estimates of revenue are pretty accurate, and the National Government should do its best to economize and cut down expenses. For many years the economies of the Government have fallen short of those calculated in the budget. Let it be so in the current year, and General Rocha should make efforts to keep within the limits of the budget.

The following charters are reported:— 1. To Segundo to load for Channel for 20 tons. 2. To Segundo to load for Channel for 20 tons. 3. To Segundo to load for Channel for 20 tons.

We call the attention of our camp subscribers to the extraordinary law of the Province of Buenos Aires, passed last month. This law means much more than many people think, and the effects of same are already being felt in several parts of the Province. The lands that are being expropriated at present are principally those near the camp towns on the 'chirios' of same. The law is one that will change the face of the camp and extend both 'chirios' and towns on all sides; viewed in this light the measure is a beneficial and progressive one. Thus in order to extend the 'chirio' of Pergamino, the Government has taken the expropriation of a square league and a fraction of parts of the following properties:—

Don Lorenzo Moreno's Don Antonio Silva's of the Silva testamentary and of Ruiz's, of Vidal and Bohaviera. Two square leagues in order to extend the 'chirio' of Arrecifes. The following are the properties affected:— 1. Testamentary of Vidal and Bohaviera, 4,000 yards front to the South by 12,000 deep to the West of the town. 2. Ruiz's, 1,000 yards front by 9,000 deep, next to the Velez-Sarsfield ground. 3. Poyeras and Molina's, 1,400 yards front by 9,000 yards deep. 4. Testaments of P. P. Milan's, 1,500 yards front by 12,000 deep to the East of the town.

As can be seen by the areas of camp affected these expropriations are insignificant, and it remains to be seen what price these lands will fetch. Lands in Arrecifes and Pergamino are not to be had for a pang, and the Government will have to spend a good amount to the owners to the surveyors, at all events the camp towns reap the benefit. A letter of Mr. O'Connor, of Colon, published in the Telegraphic Mercantile contradicts the report of a saladero league with regard to the price of novillas.

The following figures with regard to the extraction of coal in different parts of the world during the year 1879 will be found interesting:— Tons. England..... 159,720,398 United States..... 60,850,000 Germany..... 42,000,725 France..... 17,401,845 Belgium..... 17,447,192 Austria..... 9,875,004 Other countries..... 10,000,000 Total..... 308,632,860

The creditors of the 'concurra' Saged y Hermanos in Montevideo are urged by the Commercial Judge to appear before 30 days at the Court of Appeals.

The Norwegian brig Barden has been chartered in Montevideo to load for New York for \$ 9,000. The following clearances are reported in the Montevideo port:— Armado for Brazil with 129,900 kilos jerked beef. Arribe from Panama report great activity in the mines. The mineral industry has great future in this country. The Provincial Bank has telegraphed to London for \$100,000.

LONDON LETTER.
(From our Own Correspondent.)
THE PRESIDENT'S MESSAGE.

December 8th.
President Arthur's Message was sent to Congress on the 6th inst. A summary of it occupies two columns of the *Times* of yesterday. In regard to foreign affairs the President alludes to the delicate relations existing between the Republic and the great Powers of Europe, and to the fact that the feeling of good-will between the United States Government and that of England was never more marked, in recognition of which the salute of the British flag at Yorktown was ordered. The presence of the French representatives and of the Stouibens family was also noticed as confirming the good understanding between the Republic and the Governments of France and Germany.

The Panama Canal question, the President says, is of grave maritime importance. The Government sought to render the compact of 1846 with the United States of Colombia effective by fresh engagements. The negotiations had ended with a disavowal of the power of the Colombian envoy, but with proposals for their renewal on a different basis. Meanwhile Colombia had proposed to the European Powers to join in the guarantee of the canal, which was a direct contravention of the American obligation as the sole guarantor of the integrity of Colombian territory and of the canal itself. "My predecessor," says the President, "felt it his duty to submit to Europe the reasons which make the prior guarantee indispensable, and for which the intervention of any foreign guarantees might be regarded as a superfluous and unjustified act. Foreseeing the probable refusal of the British Government in 1850, as affording room for a share in the guarantee which the United States coveted with Colombia four years before, I have not hesitated to seek a settlement of the action of my predecessor by proposing to Her Majesty's Government a modification of that instrument, and the abrogation of the claims which do not comport with the obligations of the United States towards Colombia, or with the vital needs of the two friendly parties to that compact."

The message proceeds:—The Government view with great concern the continuance of hostile relations between Chile and Bolivia and Peru. It is desirable that they should be spared further misery and bloodshed, because the consequences of the conflict are dangerous to the interests of the Republic. Government on this continent, and calculated to destroy the best elements of our free and peaceful civilization. As diplomatic intercourse through the separate Ministers is sometimes subject to temporary misunderstanding, it has been deemed judicious to send a special envoy to each Power with instructions which I trust will bring these Powers into friendly relations. The message expresses regret at the withdrawal of steam communication with Brazil. It mentions that the boundary dispute between Chile and the Argentine Republic has been settled through the efforts of the American Minister and says:—"The opportunity afforded our Government of exerting their good influence to settle such conflicts among the Republics of the American continent is a matter of congratulation."

The message approves Mr. Folger's recommendations for the retention of the silver certificates and the cessation of the coinage of a fixed amount of silver each month, that the issue of gold certificates be not for the present resumed, and that banks be forbidden to retire their currency except upon reasonable notice. The President agrees with Mr. Folger that unless the Three-and-Half per Cents can be funded at a much lower rate of interest no legislation respecting them is desirable. He estimates that with the continuance of the surplus of revenue and the increase of population the entire debt could be paid in 10 years, but he believes that the burden of taxation should be reduced, and concurs with Mr. Folger in the abolition of revenue taxes, including those upon banking capital and deposits, excepting those upon tobacco, spirits, and liquors, which, however, may be reduced. He says the tariff law needs cautious revision with a due regard to conflicting interests. A commission therefor is lately approved by the Senate and should be appointed. The President advises an increase of the army to 30,000 men, and strongly urges a thorough rehabilitation of the navy, which every consideration of national safety, economy, and honor imperatively demands.

Discussing Civil Service reform, the President says that "the same rules should be applied which regulate private business appointments, and should be based upon fitness for the tenure of office and punishment for misconduct. He speaks approvingly of the English system, but considers it hardly adaptable yet in America. He will support any measure of Congress to establish competitive tests. The decline of the merchant marine is greatly deplored, the President re-

marking:—"Considering that we furnish so large a portion of the freight of the world there must be a peculiar hindrance to the development of this interest which might not have failed had it been protected as we have protected our manufactures." The subject is recommended to the attention of Congress as one of the greatest importance.

The report of the Secretary of the Treasury has also been sent to Congress. Mr. Folger says:—"The revenue for the fiscal year which ended on June 30, was \$364,000,000, and the expenditure \$260,000,000. The surplus, exceeding \$104,000,000, has been devoted to the redemption of bonds. The requirements of the sinking fund amounted to \$90,000,000, and to those requirements \$74,000,000 have been applied. The fund for the present year is estimated to require \$59,000,000, but up to date there is an excess of \$6,000,000 on the amount required for the entire year. The surplus revenue hereafter accruing will be applied to the purchase or redemption of the public debt. Compared with the previous year, the receipts have increased by \$27,000,000, while the expenditure has decreased 10,000,000. Mr. Folger recommends the passage of an act simplifying the method of extending corporate existence to the national banks, which will render unnecessary their reorganization as required by the present law. He endorses the policy pursued by the Treasurer's Department, which holds that the reserve for the redemption of United States notes should be about 40 per cent. of the outstanding notes, and says it has never fallen below 35, nor exceeded 45 per cent. The question of silver certificates is treated briefly, Mr. Folger urging the repeal of the act requiring their issue and their early retirement. Referring to the discontinuance of gold certificates, the Secretary says that should they be issued they would immediately take the place of coin which would flow to the Treasury from the banks, and in view of a possible demand for the redemption in coin of legal tender notes the issue of these certificates would be very objectionable. If thought desirable by Congress a law might be passed prohibiting the banks retarding their circulation, except on notice—the thought thereof to be fixed by law—thus preventing a sudden contraction of the currency, which might cause serious embarrassment. Regarding legal tenders Mr. Folger discusses the question whether the Government, having resumed specie payments, can still claim the legal tender quality for these notes, and says the matter is well worthy of attention. He holds that United States Bonds must be paid in gold, as it might be fairly regarded, especially by foreign holders, as a breach of faith if they were compelled to receive payment in silver coin worth but 80 per cent. of the American standard value in the markets of the world; more particularly as the Government are abundantly able to discharge all obligations in money which is accepted everywhere as the true standard value. In view of the different opinions of European nations on bimetallicism, and in order to gain concert of action among the various countries, the Secretary urges the suspension for the present of the coinage of silver dollars. The silver question he regards as demanding the early attention of Congress. The United States cannot consent to a total abandonment of gold as money, and yet cannot afford to be compelled to pay for foreign purchases entirely on the gold standard and sell on the silver standard. Therefore he recommends the repeal of the law fixing the amount of the monthly coinage, and authorizing the Treasury to coin only to supply demands. A revision of the tariff is necessary, especially as regards iron and steel, which will equalize the duties and prevent litigation. He advises the appointment of a commission to frame a tariff law, and renounces the recommendation of 1880 for the repeal of discriminating duties, especially on teas and coffees, and in the possession of the Netherlands. Mr. Folger proceeds to state that the rapid reduction of the public debt and the increased surplus present for the consideration of Congress the question whether there should not be a reduction of taxation. It is estimated that under the present ratio of receipts and expenditure the debt will be paid in 10 years, and in view of the large sum paid by the present generation it seems just that the next should bear a portion of the burden, and that the present heavy rate of taxation should be lightened. The Secretary therefore recommends the repeal of the law requiring stamps on bank checks, mortgages, and proprietary articles, and the lessening or abolition of the tax on bank deposits, whenever the public revenues exceed the public needs, but he urges that the revenue from spirits and fermented liquors and tobacco should be kept up. He also suggests that the customs revenues might be reduced, the increase therein during the past year being nearly 12 millions over the preceding year, and he asks for the appointment of a tribunal for the trial of customs cases, or their transfer to the Court of Claims. Mr. Folger reviews the bond operations of his predecessors, and says that extended bonds bearing 3½ per cent.

interest, possess the quality seldom found in Government debts—viz., that of being paid or continued at pleasure. Therefore the department makes no recommendation for the refunding of these bonds, but does recommend that if a new loan at lower interest be offered, bonds be given with a long term of payment, as the Secretary believes, on information obtained from men engaged in financial operations, that a 3 per cent. loan would be successful at long date. The attention of Congress is called to the necessity of direct legislation authorizing quarantine for imported cattle.

SOLE IMPORTERS OF
WALTER A WOOD'S HARVESTING MACHINES

A Competitive Field trial of Automatic Binders was held at Melbourne in the Province of Victoria, Australia, on the 28th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—
Walter A. Wood's Twine Binder.
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their award did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:
Walter A. Wood's Twine Binder
Was awarded the FIRST PRIZE.

At Field Trials held in Australia during the past harvest, November 27, 1880, at a Field Trial of Binders held under the auspices of the North Gippsland Agricultural Society, the Walter A. Wood Twine Binder was awarded the First Prize. Two machines competing.

December 9, 1880, at a Field Trial of Binders, held under the auspices of the Bendigo Agricultural Society the Walter A. Wood Twine Binder was awarded the First Prize, a large Gold Medal, in competition with the McCormack.

The Wood Reapers have met and defeated in public competitions the Machines of:
